

Session :- 4

1. List all 6 phases of SDLC in order with one line about each.

Ans:

The 6 phases of the Software Development Life Cycle (SDLC) are:

1. Requirement Analysis – Gather and understand the user's needs and project requirements.
2. Design – Create the system architecture, database design, and user interface plan.
3. Development (Implementation) – Write the code and build the software according to the design.
4. Testing – Check the software for bugs and verify that it works as expected.
5. Deployment – Release the software so users can install or access it.
6. Maintenance – Fix bugs, improve features, and update the software after deployment.

2. Write 3 differences between Agile and Waterfall models.

Ans:

Agile Model	Waterfall Model
1. Development is done in small, repeated cycles called iterations.	1. Development is done in fixed sequential phases.

Agile Model	Waterfall Model
2. Requirements can change during the project.	2. Requirements are defined at the beginning and are difficult to change.
3. Testing is performed continuously throughout development.	3. Testing is usually done after the development phase is completed.

3. Name the 3 main Scrum roles and write one line about the responsibility of each.

Ans:

The 3 main Scrum roles are:

1. Product Owner – Manages the product backlog, defines requirements, and ensures the team delivers customer value.
2. Scrum Master – Facilitates Scrum processes, removes obstacles, and helps the team work effectively.
3. Development Team – Designs, develops, tests, and delivers the product increment during each sprint.

4. What is a Sprint in Scrum? Mention its typical duration.

Ans: A Sprint in Scrum is a fixed time period in which the development team works to complete a set of tasks and deliver a usable product increment. The typical duration of a Sprint is 2 to 4 weeks.

5. What do these Jira board columns mean: To Do, In Progress, Done, Backlog?

Ans:

Jira Board Column	Meaning
Backlog	Contains all planned tasks, ideas, and issues that are waiting to be worked on.
To Do	Lists tasks that are ready to be started by the team.
In Progress	Shows tasks that are currently being worked on.
Done	Contains tasks that have been completed and meet the required criteria.
