

Session 1

1. Write a short paragraph in your own words defining what a 'program' is and give one real-life example from any app you use daily (like Instagram, Zomato, or Paytm).

A **program** is a set of instructions written in a programming language that tells a computer or mobile device what to do. Programs help us perform different tasks quickly and automatically. For example, in **Zomato**, a program allows users to select food, place an order, make a payment, and track the delivery. All these actions are controlled by different programs working together.

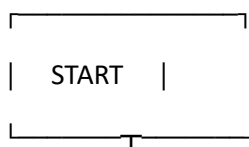

2. List three popular programming languages you have heard of, and for each, mention whether it is usually compiled, interpreted, or can be both.

Hint: Think of languages like Java, Python, and JavaScript.

Programming Language	Usually
Java	Compiled
Python	Interpreted
JavaScript	Both (compiled and interpreted)

Draw a flowchart (on paper or using any online tool) for the process of booking a movie ticket on BookMyShow, starting from opening the app to receiving the booking confirmation.

3. Draw a flowchart (on paper or using any online tool) for the process of booking a movie ticket on BookMyShow, starting from opening the app to receiving the booking confirmation.

| Open BookMyShow App |

| Select Your City |

| Select Movie |

| Select Cinema |

| Select Date & Time |

| Select Number of
Seats & Choose Seats |

4. Write down the steps (as an algorithm, using simple numbered instructions) for ordering food on Swiggy — from opening the app to completing payment.

Algorithm: Ordering Food on Swiggy

1. **Start**
2. Open the **Swiggy** app.
3. Log in or enter your mobile number.
4. Select or confirm your **delivery location/address**.
5. Search for the restaurant or food item you want.
6. Select a **restaurant** from the list.
7. Choose the food items you want to order.
8. Add the selected items to the **cart**.
9. Open the cart and check your order.
10. Confirm the delivery address.
11. Apply a coupon or offer, if available.
12. Select a **payment method** (UPI, card, wallet, cash on delivery, etc.).
13. Review the total amount.
14. Click **“Pay Now” / “Place Order.”**
15. Complete the payment using the selected method.
16. Receive the **order confirmation**.
17. **Stop.**
